Attendance

Attendance: We must work together to ensure that our students are attending school each day and receiving a quality education. The graph below shows that our average daily attendance this week is 95.23%. Our goal is sustain the 95% attendance rate. Please ensure that your students are present at school and arrive on time. When students are not in school, they are missing valuable instructional time. You can review the attendance policy on the district's website. Specific requirements for attendance are address, including what time of the day is considered tardy, full day, half day, etc.
